Orientation Academic Advising Session

What is University Studies?

Program Overview

Academic Home for Exploring Students

- Team of Advisors and Educators
 - Personalized one-on-one advising
 - Required once per semester to enroll in the following semester's classes
- Supplemental Advising for students in declared majors
- Courses
 - US 101US – First Year Seminar
 - COMX 111US – Intro to Public Speaking

Group Activity

- What was your first dream job as a child?

Ways to think about majors

- Does the major(s) you are considering lead to a professional certification?
 - If not,
 - Does it track into a career?
 - Does it focus on areas of individual interests?
 - There is no right or wrong answer... ultimately, we want you to enjoy and care about what you are studying.

Identify majors, interests & challenges

Potential Majors:

Psychology, Environmental Studies, Business

General Interests/Strengths:

Helping people, learning about environmental issues. I'm organized and like leading projects. I enjoy math, labs and discussions.

Areas of Disinterest/Challenges:

Computer Science, Engineering. Sometimes I struggle with essays.
