

STEP 3: USE CATCOURSE TO GENERATE SCHEDULES

To be prepared on Registration, take a few steps today:

- Under MYINFO> Student Services> Registration> CatCourse
- Enter Emergency contact information
- Select or Waive MSU Health Insurance

Find Blue Button “Add Course”, then click on “DegreeWorks” tab, you will find the classes we’ve just locked in your plan. You can get familiar with the system today but do not lock your schedule today or send it to the Registration Cart as you will need to generate your schedule during registration. However, in the process of becoming familiar with CatCourse, if you see a schedule that you might like, take a picture on your phone to use as a possible reference point.

STEP 2: CREATE A PLAN in DEGREEWORKS (see handout)

Name your plan "OF2" (capital, no space).

When you are done, ask an advisor in the room to review and lock your "plan."
Once that step is done, you are ready to start generating schedules in CatCourse.
