## Locally Grown

When you buy at the county fair, you are helping to support your local 4-H & FFA members. You can trust that your animal was raised with the highest quality of life & was well cared for.

## Youth Skill Building

Through raising livestock, members are able to develop life skills such as responsibility & strong work ethic.

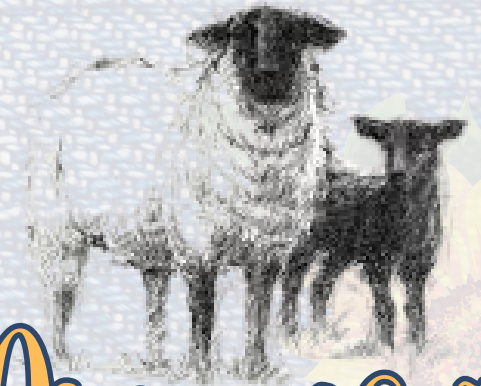

Buying a 4-H or FFA animal helps to support members in growing these skills & becoming more productive members of society.

## Price Comparison

It is typically more cost effective to buy a whole animal rather than cuts from the grocery store.

This money also goes directly to the 4-H & FFA members.
